

<b>Category</b> (科目区分)	Research subject		
<b>Course Title</b> (授業科目名)	Immunology		
<b>Instructors</b> (担当者名)	Satoshi Ishii	<b>Academic Year</b> (配当年次)	2,3
<b>Required Course / Elective Course</b> (必修/選択)	Elective Course	<b>Credits</b> (単位数)	15
<b>Class Format</b> (授業形態)	Experimental practice		
<b>Schedule</b> (開講期間)	Students will be notified by email after completing course registration.		
<b>Class Date/Period</b> (開講曜日・時間)	Students will be notified by email after completing course registration.		
<b>Course Outline/ Course Objectives</b> (授業の概要・到達目標)			
<p>Course Objectives: Students enrolled in this course will be instructed to develop various approaches to clarify the functions in vivo of biologically active lipids, called lipid mediators. Students will also acquire the technical knowledge and skills required to present papers at conferences and to write papers in the course of research.</p> <p>Learning Outcomes: After publication of the paper, the student will be examined for the degree.</p> <p>Course Outline:</p> <ol style="list-style-type: none"> <li>1. Search for novel lipid mediators and receptors.</li> <li>2. Elucidation of the intracellular signaling mechanism of lipid mediator receptors.</li> <li>3. Investigation of the function of lipid mediators at the cellular and individual (mouse) levels.</li> </ol>
